TAFE's Campus Connect initiative – TAFE Innovista was started last year with the objective of encouraging innovation among engineering students and offering them a platform to showcase their talents. This year around 300 students and 100 teams participated from over 15 colleges displaying their projects. The projects revolved around safety and security, agricultural mechanisation, specialized engineering concepts, waste management and renewable energy solutions with futuristic implications.

The second edition of TAFE's Campus Connect initiative, TAFE Innovista, saw around 300 students and 100 teams participated from over 15 colleges to showcase projects revolving around safety and security, agricultural mechanization, specialized engineering concepts, waste management and renewable energy solutions with futuristic implications. The objective of the event was to encourage innovation among engineering students

and offering them a platform to showcase their talents. The event concluded with the award ceremony, where cat-

egory awards were conferred to the participants along with an award for the best project of TAFE Innovista Season II. The list of winners include: K Navaneetha, Krishnan, Joyal J of Loyola ICAM College of Engineering and Technology for his project on Connecting The Human Brain And Computer Research (Hearing Aided Machine Passing Through Nerves), S R Sabarish, A Vignesh, S Narendran of Kongu Engineering College, Perundurai for their project Turmeric Harvester Attachment (Agricultural), P Vishal, V Vishnuh, S Vinoth, M Senguttuvan, Vijayakumar, C Venkatesh, B Venkadesh of Kongu Engineering College, Perundurai for their project, Initiation Of Electricity From Flue Gas (Electronics), G Rajeshkumar, I Jesu Titus of Institute of Road and Transport Technology, Erode for their project on Comparative Investigation On Performance And Emission Analysis Of CI Engine Fuelled With Various Methyl Esters And Diesel Blends (Engineering) and Nirmal Kumar R, Naveeth Imran J, Srinath K of Knowledge Institute of Technology, Salem for their project on Rescue Robots In Borewell (Society).

Innovators honoured at TAFE Innovista event for engg grads

Chennai, Feb 7: TAFE's Campus Connect initiative – TAFE Innovista was started last year with the objective of encouraging innovation among engineering students and offering them a platform to showcase their talents. Chennai, Feb 7: to showcase their talents. This year around 300 students and 100 teams participated from over 15 participated from over 15 colleges displaying their projects. The projects revolved around safety and security, agricultural mechanization, specialised engineering concepts, waste management and renewable energy solutions with futuristic implications. TAEE Innovirta ic an TAFE Innovista is an avenue to build fruitful industry-institution connect and to spur India's young

and to spur India's young engineers to experiment and explore new ideas. TAFE Innovista was hosted at TAFE's manufacturing location in Sembium, Chennai. The event was inaugurated by senior members of the TAFE R&D department. Over the two days TAFE R&D department. Over the two days the teams had their projects on display, and demonstration were made to TAFE's panel of judges for evaluation. All the exhibits displayed admirable standards and

posed a challenge for the judges to pick the best among them. Talking about TAFE Innovista, TAFE Group CHRO, Muthu Kumar Thanu said, "TAFE's Campus Connect initiative - 'TAFE Innovista' offers an opportunity 'TAFE Innovista' offers an opportunity for emerging talent to showcase their innovative ideas and encourages young engineering minds young engineering minds to realize their potential. Many of the project innovations by the engineering students have won the admiration of industry professionals and experienced engineers. It is our attempt as a responsible corporate a responsible corporate citizen to encourage and nurture a crop of young engineering minds because, at TAFE, we believe in Cultivating the

World by cultivating a

bright future for the next generation!" The event concluded with the award ceremony, where category awards were conferred to the participants along with an award for the best project of TAFE Innovista Season II: • Connecting The

Season II: • Connecting The Human Brain And Computer Research (Hearing Aided Machine Passing Through Nerves) • K. Navaneetha, Krishnan, Joyal J - Loyola ICAM College of Engineering and Technology, Chennai

College of Engineering and Technology, Chennai • Turmeric Harvester Attachment (Agricultural) • S. R. Sabarish, A. Vignesh, S. Narendran • Konau Engineering

Vignesh, S. Narendran -Kongu Engineering College, Perundurai • Initiation Of Electricity From Flue Gas (Electronics) - P.

Vishal, V. Vishnuh, S. Vinoth, M. Senguttuvan, Vijayakumar, C. Venkatesh, B. Venkadesh – Kongu Engineering College, Perundurai • Com parative Investigation On Performance And Emission Analysis Of CI Engine Fuelled With Various Methyl Exters And Diesel Blends (Engineering) - G. Rajeshkumar, I. Jesu Titus, Institute of Road Titus, Institute of Road and Transport Technology,

Rescue Robots
In Borewell (Society)

In Borewell (Society) - Nirmal Kumar R., Naveeth Imran. J, Srinath K. – Knowledge Institute of Technology, Salem The awards were presented by Thirumalai M. Senior General Manager - Materials and Mahesh N, General Manager - HR, of TAFE.
